TAB, the real estate finance and investment house, has launched its new residential investment mortgage product. This move aligns with TAB's commitment to providing tailored ESG-focused financing solutions and expanding its presence in the residential market.

TAB's mortgage product offers property investors interest-only loans on buy-to-let and other residential investment properties including HMO's, holiday lets and AirBnB's up to £2.5m and terms from 3 to 10 years. Borrowers can access loans with LTV of up to 70% although TAB offers flexible and fast services catered to each loan requirement.

TAB's residential mortgage product targets sustainability-focused property investors and offers them 100% discounts off an exit fee of 1.00% by meeting ESG criteria.

- Up to 0.50% off for improving Energy Performance Certificate (EPC) ratings (for example D to C: 0.25%, D to B: 0.35%, D to A: 0.50%).
- Sustainability action can earn a 0.25% discount (for example installing EV charging, efficient waste management, using green materials).
- An additional 0.25% discount for social outcomes tied to UN Sustainable Development Goals (for example, if the property is leased to social enterprises, charities or adult learning).

The TAB team will work closely with the borrower so that outcomes are assessed with the appropriate evidence.

TAB recently completed its private securitisation facility with NatWest and Atalaya Capital Management for £300m in October 2023. This facility will be used by TAB to support all of its lending products.
