Module *three*: Market analysis and research

This infographic provides a helpful starting point for market and research. If you find the infographic useful, make sure you watch the webinar!

Market analysis and research

Understand local property conditions:

Study property values, rental rates, and demand-supply dynamics to grasp market conditions.

Evaluate economic factors:

Consider job growth, unemployment rates, and GDP trends to gauge market health.

Analyse trends:

Stay ahead by tracking demographics, urban plans, and infrastructure projects.

Thorough research and analysis:

Utilise CMAs and expert insights for informed investment decisions.

Why is market analysis crucial?

Identify potential opportunities:

Explore local properties to uncover areas of growth, like town revitalisation, for profitable investments.

Mitigate risks:

Evaluate factors such as crime rates and planning regulations to make informed decisions that protect your investment.

Align investments with trends:

Stay dynamic by investing in line with market trends, from sustainable living to emerging developments.

Data-driven decision-making:

Use tools and research reports to analyse data like comparable sales and rental yields for informed choices.

Local market understanding:

Navigate the property investment landscape with insights into opportunities, risks, and trends for a successful portfolio.

Tools and resources for market research

Balance quantitative and qualitative analysis:

Combine online platforms with local insights for deeper market understanding.

Government data:

Access census, employment, land registry data for demographics, trends, stability.

Online platforms:

Use Rightmove, Zoopla, OnTheMarket for scouting, comparing prices. Consider Property Data and Relays for extra insights.

Networking with local professionals:

With UK property professionals for firsthand market knowledge, insights, and developments.

Identifying areas for investment

Population growth:

Assess demographics to spot areas with growing populations, signalling high housing demand and potential property value growth.

Employment opportunities:

Focus on areas with varied job markets and thriving industries, drawing in residents and boosting housing demand.

Infrastructure development:

Track infrastructure projects to measure their effect on property values and town allure, as upgraded amenities and transport networks increase appeal.

2023 property market

Market performance:

Central London prices stayed flat in 2023 despite economic uncertainty, steady sales volumes from cash buyers and first-timers with large deposits.

Service charges:

High due to inflation and fire safety, dampening apartment block sales.

Rental market:

Stable in 2023, significantly higher than pre-pandemic levels, tight supply.

Economic outlook:

UK economy to perform

Interest rates:

Rise affects demand, notably for one-bed apartments, with full impact pending.

Fire safety regulations:

Complex, hindering sales and causing delays.

Freehold houses:

Outperformed apartments in the past year.

Mortgage rates:

Rose steadily in 2023.

Define your investment goals:

Clearly outline what you want from your investment, whether it's long-term growth, rental income, or a mix of both.

1.

Research population trends:

Look into demographic data to find towns experiencing consistent growth and the reasons behind it.

2.

Evaluate local markets:

Check out stable industries and up-and-coming sectors to ensure there are sustainable job opportunities.

3.

Infrastructure check:

Take a look at ongoing and planned projects, like HS2, to see how they might impact the town's attractiveness and property values.

4.

Compare towns:

Analyse population, job prospects, and infrastructure data to match investment goals effectively.

5.

Understanding property cycles

Property cycles and economic factors:

Understand property cycles influenced by economic factors, guiding strategic decisions.

This article is for information only and to provide people with tips and insights into property investment. It does not constitute advice or a personal recommendation.

Capital is at risk. Property values can go down as well as up. Borrowers may default and investments may not perform as expected. Interest and income are not guaranteed. Returns may vary. You should not invest more than you can afford to lose. TAB is not authorised by the Financial Conduct Authority. Investments are not regulated and you will have no access to the Financial Services Compensation Scheme (FSCS) or the Financial Ombudsman Service (FOS). Past performance and forecasts are not reliable indicators of future results and should not be relied on. Forecasts are based on TAB's own internal calculations and opinions and may change. Investments are illiquid. Once invested, you are committed for the full term. Tax treatment depends on individual circumstances and may change.

You are advised to obtain appropriate tax or investment advice where necessary. Understand more about the key risks [here](#).

TAB is a trading name of TAB London Limited. Registered in England and Wales with registration number: 11225821 and whose registered office is at 101 New Cavendish Street, London W1W 6XH.
